

• DESIGN • PRINT • MAIL • PROMOTIONS • FULFILLMENT •

We are thrilled to announce that effective April 1, 2022 we'll be joining forces with CDI Printing Services, Inc. CDI is a thriving, local, minority-owned printing company that shares our family-owned values and commitment to excellence.

Like Professional Graphic Communications (PGC), CDI is female-led, community oriented, and rich in industry expertise. CDI President, Blayre Britton, and her team have a strong commitment to serving their customers and community, as well as decades of experience in print manufacturing and a facility outfitted with the most up-to-date and efficient printing equipment available today.

Over the past few years, Blayre and I have worked hard to create a highly-professional, cohesive team, dedicated to serving our customers' graphic design, commercial and digital printing, mailing, promotional product, and hand fulfillment needs from our two locations. This extremely successful relationship has led to tremendous growth, and in the upcoming weeks the PGC staff will formally move into CDI's Gibsonia facility

What will change for you? Nothing: you will continue to work with the same people that you have in the past. Everyone will continue in their current roles at CDI. Our fee structure will not change. The top-notch service we have provided you in the past will continue as always. Now, however, our increased capacity and capabilities will allow you to rely on us for all of your projects!

Enclosed please find a mousepad with repositionable adhesive backing featuring our contact information so that you can conveniently reach out to us for your print marketing needs. A list of our combined equipment is also enclosed to assure you that we will be able to handle any job, no matter how big or small.

I am always available to meet with you to discuss your marketing material needs in person at your location, or I invite you to stop in and tour the new facility. On behalf of the staff at PGC and CDI, we appreciate your business, value your support of our Pittsburgh family-owned business, and look forward to continuing work with you.

Sincerely,

Susan Weinzierl
